SUMMARY

Full-stack Computer Science graduate with hands-on experience building and deploying production-style web applications using React, Next.js, TypeScript, Node.js, and PostgreSQL. Strong interest in system design, API integration, and AI-assisted development. Comfortable working across frontend, backend, and data layers to deliver complete end-to-end software systems.

EDUCATION

La Salle University

B.S. Computer Science, Mathematics Minor

GPA: 3.99 / 4.00 (Summa Cum Laude)

Philadelphia, USA

Aug 2024 – May 2026

University of Tulsa

B.S. Computer Science (Transferred)

Tulsa, USA

Aug 2022 – May 2024

PROJECTS

SleeveMap

[Link](#)

Next.js, TypeScript, PostgreSQL (Supabase), Strava API, Mapbox

- Designed and built a full-stack activity mapping platform integrating Strava OAuth 2.0, ingesting and normalising thousands of user activity records into a PostgreSQL schema
- Engineered a real-time webhook ingestion pipeline to sync new activities automatically, eliminating manual refresh and enabling near real-time updates
- Developed a multi-tenant public profile system using row-level security policies, enabling secure sharing of interactive route maps without authentication
- Implemented route planning features using Mapbox Directions API, including snap-to-road routing, GPX export, and heatmap overlays for training analysis

Mjolnir (Group Project)

[GitHub](#)

Next.js, TypeScript, BigQuery, Google Cloud, Gemini API

- Collaborated in an agile engineering team to design and implement a log analysis and observability platform for large-scale datasets
- Built interactive analytics dashboards using BigQuery datasets and ApexCharts to visualise system behaviour and anomalies
- Integrated Google Gemini API to provide AI-assisted log analysis and anomaly explanation features
- Worked in sprint-based development cycles with code reviews, task breakdowns, and feature delivery milestones

EXPERIENCE

NCAA Division I Athlete

2022 – 2026

University of Tulsa & La Salle University

- Competed at NCAA Division I level while completing a full-time Computer Science degree
- Operated in high-performance, team-driven environments requiring discipline, consistency, and execution under pressure

Cook / Facilities Assistant

2025 – 2026

La Salle University Christian Brothers

- Supported daily operations including food preparation and facilities maintenance in a residential community setting

Waterways Labourer

2021

CityCare Water, Christchurch NZ

- Performed field maintenance work supporting municipal waterway infrastructure and environmental upkeep

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, TypeScript, SQL

Frontend: React, Next.js, HTML, CSS

Backend / Data: Node.js, PostgreSQL, REST APIs

Tools: Git, Docker, Supabase, Vercel, Postman
